A 6 week art course exploring the world of Intuitive Painting.

Learn the art of intuitive painting and exploring the process of creating rather than only being concerned with the finished product. We will be exploring how to approach the canvas, paint application, mark making, texture choice, warm vs cool colours, colour theory and layering.

Learn to listen to your intuition and trust in the creative process, discover what emerges between each layer of paint and bring out what comes naturally.

To gain a better understanding of the techniques used with Intuitive Painting, we will go through the process of two different paintings as a group, step by step.

Weekly art journal activities will be assigned to allow our creative minds to continue working when not in the studio.

This course is suitable for all skill levels. Whether you have never attempted to paint before or you have a long history of painting.

Required Materials:

- Acrylic Paint: Red, Blue, Yellow, Black, White AND a variety of any colours that speak to you, they can be vibrant, bold, or neutral. It is important to select colours you find inviting.
- Brushes: Foam brushes (mod podge ones-these can be purchased at the dollar store) and a variety of brushes you prefer to use.
- A Spray Bottle for water (these can be purchased at the dollar store)
- Canvases. During the first four classes, we will be working on two group paintings, with the last two classes being a painting you create from intuition. For the first class, please make sure you bring a canvas measuring 6" x 6" or larger.
- A small notebook or journal. We will be exploring how to record daily findings that are inspirational to us and help us organize our thoughts. These art journals/notebooks are personal and you will not be required to show them to the class if you do not wish to.
