A 6 week art course exploring the world of Intuitive Painting.

Learn the art of intuitive painting and exploring the process of creating rather than only being concerned with the finished product. We will be exploring how to approach the canvas, paint application, mark making, texture choice, warm vs cool colors, color theory and layering. Learn to listen to your intuition and trust in the creative process, discover what emerges between each layer of paint and bring out what comes naturally.

To gain a better understanding of the techniques used with Intuitive Painting, we will go through the process of two different paintings as a group, step by step. Weekly art journal activities will be assigned to allow our creative minds to continue working when not in the studio.

Required Materials:

- Acrylic Paint: Red, Blue, Yellow, Black, White AND a variety of any colours that speak to you, they can be vibrant, bold, or neutral. It is important to select colours you find inviting.
- Brushes: Foam brushes (mod podge ones-these can be purchased at the dollar store) and a variety of brushes you prefer to use.
- A Spray Bottle for water (these can be purchased at the dollar store)
- Canvases. During the first four classes, we will be working on two group paintings, with the last two classes being a painting you create from intuition. For the first class, please make sure you bring a canvas measuring 6" x 6" or larger.
- A small notebook or journal. We will be exploring how to record daily findings that are inspirational to us and help us organize our thoughts. These art journals/notebooks are personal and you will not be required to show them to the class if you do not wish to.

#### Don't wish to purchase your own supplies?

Wish to use the studios, you have the option to do such at the additional fee of \$40 to the course price. This will entitle you to use the studio's paint trays, brushes, acrylic glazing liquid, acrylic paints during class time.

During the creative process, students will be learning a variety of mixed media techniques, oil pastel resist, textured stencils, stamping, imprinting, scrafitto, and more as we create unique papers to use as collage elements.

Starting our second class, we will look at the papers we have made and begin to attach them to our canvas, building up our backdrop.

By our third class, students will have a solid foundation of their chosen animal spirit on the canvas, and we will begin to embellish our creature and add finishing details.

By the end of this course, students will have a symbolic piece of art they have created and be able to apply their new knowledge to future pieces.
